

SYSTEM OVERVIEW

The Pro Trader trades the S&P Emini and Ten Year Note utilizing a proprietary blend of technical indicators designed to generate alpha while attempting to reduce risk. This algorithm trades all six of our individual algorithms in an attempt to have a large number of uncorrelated algorithms trading concurrently, thereby smoothing out the equity curve in an attempt to provide a bit more consistency in the returns. The Pro-Trader utilizes three swing trading algorithms along with three day trade algorithms which can enter positions either Long or Short, depending on market characteristics.

COMPANY OVERVIEW

AlgorithmicTrading.net is a third party trading system developer providing high quality quantitative trading systems which can be traded on your personal computer or through a letter of direction with one of our supported brokers. AlgorithmicTrading.net is not registered with the NFA as a CTA, claiming the self-executing exemption from registration granted by the CFTC.
